Re: Upper, Lower, 20,800', 21,100' Tuscaloosa Sands, Reservoir A, Sand Unit D
20,350' Tuscaloosa Sand, Reservoir B, Sand Unit A
21,300' and 21,900' Tuscaloosa Sands, Reservoir A, Sand Unit B
Judge Digby Field, Pointe Coupee Parish, Louisiana

Dear Commissioner Welsh:

Application is hereby made on behalf of **BP AMERICA PRODUCTION COMPANY** for the calling of a public hearing, after ten (10) days legal notice, to consider evidence relative to the issuance of orders pertaining to the following matters:

1. To permit the applicant to drill, designate and utilize its Linder No. 1 Well as alternate unit well for the U TUSC RA SUD, 20350 TUSC RB SUA, L TUSC RA SUD, 20800 TUSC RA SUD, and 21100 TUSC RA SUD, at the location shown on the plats attached hereto for the respective units, or within the tolerance shown on said plats, all in accordance with the spacing provisions of Office of Conservation Order Nos. 1046-A-20, 1046-A-58, 1046-A-21, 1046-F, and 1046-D, respectively, and LAC 43:XIX.1901 et seq. (Statewide Order No. 29-E).

2. To permit the applicant to drill, designate and utilize its Linder No. 1 Well as alternate unit well for the 21300 TUSC RA SUB, and as unit well for the 21900 TUSC RA SUB, at the location shown on the plats attached hereto, or any location no closer than 150' from the nearest unit line, to account for the possible difference between the proposed location and the "as drilled" location, in exception to the spacing provisions of Office of Conservation Order Nos. 1046-C, effective March 19, 1997, and 1046-E, effective October 30, 2001, and LAC 43:XIX.1901 et seq. (Statewide Order No. 29-E).

3. To permit the operator to produce the unit allowable for the above mentioned units from the existing unit and alternate unit wells and proposed alternate unit well, in any combination, at its option.

4. To find that the aforementioned well is necessary to efficiently and economically drain a portion of the reservoirs covered by each of the subject units which cannot be so drained by any existing well within said units.

HOUSTON, TEXAS 77002-4102
TELEPHONE (713) 651-2900
FACSIMILE (713) 651-2908

5. Except to the extent herein designated, to continue in full force and effect the provisions of Office of Conservation Order No. 1046, as amended and supplemented by the 1046-A Series of Orders, and the 1046-C, 1046-D, 1046-E and 1046-F Series of Orders and the units created thereby.

6. To consider such other matters as may be pertinent.

The Upper Tuscaloosa Sand, Reservoir A, in the Judge Digby Field, Pointe Coupee Parish, Louisiana, was previously defined in 1046-A Series of Office of Conservation Orders, and redefined by Office of Conservation Order No. 1046-A-14, effective January 12, 2000.

The 20,350' Tuscaloosa Sand, Reservoir B, in the Judge Digby Field, Pointe Coupee Parish, Louisiana, was previously defined in Office of Conservation Order No. 1046-A-58, effective April 25, 2006.

The Lower Tuscaloosa Sand, Reservoir A, in the Judge Digby Field, Pointe Coupee Parish, Louisiana, was previously defined in Office of Conservation Order No. 1046, effective September 6, 1978, and redefined by Office of Conservation Order No. 1046-A-31, effective July 23, 2002.

The 20,800' Tuscaloosa Sand, Reservoir A, in the Judge Digby Field, Pointe Coupee Parish, Louisiana, was previously defined in Office of Conservation Order No. 1046-F, effective July 23, 2002.

The 21,100' Tuscaloosa Sand, Reservoir A, in the Judge Digby Field, Pointe Coupee Parish, Louisiana, was previously defined in Office of Conservation Order No. 1046-D, effective June 2, 1998.

The 21,300' Tuscaloosa Sand, Reservoir A, in the Judge Digby Field, Pointe Coupee Parish, Louisiana, was previously defined in Office of Conservation Order No. 1046-C, effective March 19, 1997.

The 21,900' Tuscaloosa Sand, Reservoir A, in the Judge Digby Field, Pointe Coupee Parish, Louisiana, was previously defined in Office of Conservation Order No. 1046-E, effective October 30, 2001.

In the opinion of the applicant, the drilling, designation and use of the Linder No. 1 Well at the location shown is necessary to efficiently and economically drain the subject units that it will serve and such designation and use will not cause harm or injury to others. In addition, the proposed designation and use of said well should increase efficient recovery of the contents of the subject reservoirs and promote orderly development of the field.

Attached hereto and made a part hereof are plats outlining the applicant's proposals along with a list of the names and addresses of the Interested Owners, Represented Parties and Interested Parties to whom a copy of this application is being sent. Pursuant to the Revised Rules of Procedure, such list of parties is being furnished ONLY to the Commissioner of Conservation and to the District Manager of the Lafayette District of the Office of Conservation; however, the list of parties will be provided to any party requesting a copy of it. A reasonable effort was made to ascertain the names and addresses of all Interested Owners, Interested Parties and Represented Parties.

August 29, 2007
